Subject:	Custom Error Renderers		
Description			

This is a backport from FLOW 1.1, described and resolved in http://forge.typo3.org/issues/39423

This one needs to be taken into account, too: http://forge.typo3.org/issues/42135

Very nice Feature, but we lack the manpower right now to solve it for 6.1. Feel free to work on this, anyway.
