

TYPO3.Flow - Task # 44375

Feature # 36715 (Accepted): Make simultaneous use of multiple persistence backends possible

Status:	Accepted	Priority:	Should have
Author:	Karsten Dambekalns	Category:	Persistence
Created:	2013-01-08	Assigned To:	Karsten Dambekalns
Updated:	2013-05-21	Due date:	
Sprint:			
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Make all persistence reads go through repositories		
Description	<p>Currently Flow fetches some objects directly via the PersistenceManager, without using the repositories for the fetched objects. This can lead to confusion (if a specialized getter is not called as expected) and prohibits the use of repositories to divert between persistence backends.</p>
