

TYPO3.Neos - Task # 44400

Status:	Resolved	Priority:	Should have
Author:	Robert Lemke	Category:	UI
Created:	2013-01-09	Assigned To:	Robert Lemke
Updated:	2013-01-09	Due date:	
Subject:	ContentElementWrappingService needs safeguard for date unserialization		
Description			
The service only checks if a date-typed node property is != NULL, but doesn't check if it is actually a DateTime object. In some cases, the property might be an empty string or ... whatever. These edge cases should at least not end with a fatal error.

[TASK] Additional check for date properties

This adds another check to make sure that corrupt or unexpected values of date node properties don't lead to a fatal error caused by calling methods on a non-object.

Change-Id: Ie53c83b7abd3ceaa76dcecc604238126af27cb4f

Resolves: #44400
