

Core - Bug # 44415

Status:	Resolved	Priority:	Must have
Author:	Andrey Aksenov	Category:	Install Tool
Created:	2013-01-09	Assigned To:	
Updated:	2013-09-14	Due date:	
TYPO3 Version:	6.0		
PHP Version:	5.3		
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	White screen when updating in Install Tool > Upgrade Wizard > Step 1		
Description			
<p>After the upgrade in Install Tool > Upgrade Wizard > Step 1 (The wizard will create two new files in the folder typo3conf/: LocalConfiguration.php and AdditionalConfiguration.php), I get a white screen...</p> <p>As it turned out, everything is easy to solve (but I spent a whole day!). Zhdo File AdditionalConfiguration.php is created with the following contents:</p> <pre><?php <?php ?></pre>

History

#1 - 2013-07-30 02:02 - Wouter Wolters

- Status changed from New to Needs Feedback

Do you still have the old file?

localconf.obsolete.php

If so can you attach it here (please remove any password from it)

#2 - 2013-09-14 22:38 - Christian Kuhn

- Status changed from Needs Feedback to Resolved

- Target version set to 6.2.0

- % Done changed from 0 to 100

- Is Regression set to No

This does not happen in 6.2 anymore, it detects the fatal and will find the faulty extension.
