Subject:	Check for new content element button uses old query object

Description

After changing the retrieval of content elements in columns the check for the new content element button still uses the old query object.

Revision 63f89df8 - 2013-01-13 10:43 - Jigal van Hemert

[BUGFIX] Use array in check for new CE button

After #44470 the content elements in a column are stored in an array.
Checks for the new content element button, etcetera must check that
array instead of counting the elements in the query result that was used
before.
