#### Revision 61ae4455 - 2013-01-15 12:30 - Karsten Dambekalns

[BUGFIX] Implement case-sensitivity switch for Query::equals()

That was left as a todo and never done. Now it is possible to check case-insensitive. Checking case-sensitive works depending on database support, it can only be done if the database allows for case-sensitive checking.

The change also trivially solves a todo about NULL checking in equals().
