

TYPO3.Flow - Bug # 44521

Status:	Resolved	Priority:	Should have
Author:	Karsten Dambekalns	Category:	MVC - Routing
Created:	2013-01-14	Assigned To:	Bastian Waidelich
Updated:	2014-02-21	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: (any)			
Subject:	ObjectPathMappingRepository always checks case-sensitive		
Description			
The ObjectPathMappingRepository always checks for matches using a case-sensitive check. This worked fine for most people so far, because the most common collation on MySQL is probably utf8_unicode_ci, which is case-*in*sensitive anyway.

Revision 9ec9717a - 2013-10-08 18:06 - Karsten Dambekalns

[BUGFIX] Respect case-sensitivity in object routing

By default dynamic route parts are lower-cased unless the "toLowerCase" flag is set to TRUE for the route or a single route part.

This change makes sure that this flag is actually taken into account for routes using the ObjectPathMapping.

Change-Id: Ia9a2a864881b2ee94f1335cc141fc5c0b5cf632e

Fixes: #44521

Release: master, 2.0

See <https://review.typo3.org/17526>

Bastian, can you take this further? To make it work reliably, the used table should probably switch to `utf8_unicode_bin@...`
