

Base Distribution - Work Package # 45020

Status:	Closed	Priority:	Could have
Author:	Sebastian Kurfuerst	Category:	Content Editing
Created:	2013-01-31	Assigned To:	Aske Ertmann
Updated:	2014-11-02	Due date:	
Subject:	Content Editing Stability and Features		
Description			
<h3>Content Editing Stability and Features</h3>			
<ul style="list-style-type: none">- Target Audience: users who want to edit content- Responsible: Aske Ertmann- Implemented by: the whole Neos Team- Amount: not estimatable, not paid, done on voluntary basis- Version: must have for 1.0- Planned Implementation Timeframe: continuous work			
Motivation			
As in-page content editing is the main way a content editor interacts with TYPO3 Neos, it's crucially important that this works flawlessly without hickups.			
Goal			
We want to solve as many as possible bugs regarding content editing, and fill in the remaining gaps in content editing.			
Deliverables			
<ul style="list-style-type: none">- fix as many content editing bugs as possible for that.- improve content editing (table insertion, improved links)			
Subtasks:			
Feature # 45431: Icon location for Node Types in Neos shouldn't be fixed to Neos package			Closed
Story # 40720: As a content editor with small screen, I want to have a collapsable insp...			Closed
Task # 40722: Make inspector panel collapsible			Closed
Task # 40721: automatically collapse inspector on small page			Closed
Feature # 45320: Support collapsing of inspector property groups			Closed
Bug # 44174: Removing image dimensions throws exception in AJAX response			Closed
Feature # 45433: Support configurable rendering max widths of images			Closed
Story # 45434: As a content editor I want to be able to edit normal content			Closed
Task # 45587: Re-enable Aloha			Closed
Task # 49928: Aloha table options inspector stays			Closed
Task # 46182: Compare CKEditor to Aloha			Closed
Task # 52330: Headers should support basic text formatting			Closed
Story # 45435: As a content editor I want to be aware when asynchronous loading is taki...			Closed
Task # 45439: Indicate loading when inserting a new content element			Closed
Task # 45483: Show loader when searching for page inside link wizard			Closed
Bug # 45445: Link wizard autocompletion of pages not working properly			Closed
Bug # 45447: HTML editor causes JavaScript error			Closed
Task # 45448: Add missing icons for inspect tree			Closed
Task # 45449: Labels for content elements without a title			Closed
Bug # 45452: Part of a site is hidden for small screens			Closed
Bug # 45456: HTML editor displays dynamically inserted content rather than the actual n...			Closed
Task # 45485: Pasting content causes page reload but inserting doesn't			Closed

Task # 45486: Copy/cut breaks after pasting an element	Closed
Task # 45531: In Backend, handle exceptions more gracefully if possible	Closed
Task # 45534: In Backend, clicking a link should not follow the link	Closed
Bug # 45794: Erroneous XHR Tasks are not always considered as such	Closed
Task # 45839: As a content editor I want the inspector fields to be validated	Closed
Task # 45957: Improve linkpicker styling	Closed
Task # 45972: Improve error handling occurring during image upload	Closed
Story # 45973: As a content editor I want improved image handling	Closed
Task # 48072: Remove image from image property	Closed
Task # 49927: Remove image caption alignment	Closed
Task # 49937: Make multiple image selection possible	Closed
Task # 49938: Add crop aspect ratio lock presets	Closed
Task # 49939: Consider replacing image alignment with layout	Closed
Task # 51468: Image preview is not reset after cancelling changes in inspector	Closed
Bug # 45980: Inserting of new content which uses layout or partials fails	Closed
Bug # 45981: Searching for pages in link wizard causes exception for unfound nodes	Closed
Task # 46251: Date picker breaks after switching month	Closed
Task # 46252: Date picker breaks after switching month	Closed
Bug # 46266: Deleting an Image content element having no image results into exception	Closed
Task # 46295: Active content element border is hidden	Closed
Task # 46401: Workspace module breaks when having two node with same path	Closed
Task # 46627: Partial visible button bar	Closed
Task # 47076: Inspector properties is partially hidden	Closed
Bug # 40677: Pasting pastes into target node rather than after	Closed
Bug # 33010: Editing of HTML elements with javascript causes problems	Closed
Bug # 42213: Script code in inspector panel fields is executed	Closed
Bug # 42733: It is not possible to interact with a plugin that throw exceptions	Closed
Bug # 44827: Error loading the VIE schema	Closed
Bug # 45542: Workspace module breaks with error	Closed
Bug # 46221: Server communication error	Closed
Bug # 47224: Neos creates "unstructured" nodes on error	Closed
Task # 47555: The deletePageDialog delete button do not match rest of the UI	Closed
Task # 47605: Image crop is broken in wireframe mode	Closed

Revision edaca6b5 - 2014-06-12 00:12 - Aske Ertmann

[BUGFIX] Inline editable properties re-initialized after publishing

When publishing changes all inline editable properties are re-initialized by Aloha in the callback due to the VIE entity being updated. This causes the cursor to be moved among other issues. To prevent this we update workspace for the entity silently.

Revision 7a064548 - 2014-06-18 18:48 - Aske Ertmann

[BUGFIX] Title used in publishing notice relies on page reload

Currently the title used when publishing relies on the page being reloaded since it gets the property from the DOM instead of the VIE entity. This is needed when the title is inline editable.

[BUGFIX] Hide formatting button when no options are available

When configuring the aloha editor not to have any formatting options, the selector is still shown although useless. This makes sure it's hidden if no options are available.
