Base Distribution - Work Package # 45021

Status:	New	**Priority:**	Should have
Author:	Sebastian Kurfuerst	**Category:**	Content Editing
Created:	2013-01-31	**Assigned To:**	
Updated:	2014-10-02	**Due date:**	
Subject:	[WIP] [ASSIGNEE MISSING] Cross Browser Compatibility		

Description

Internet Explorer Compatibility

- Target Audience: **users** who use the Internet Explorer browser
- Responsible: XY, TODO
- Implemented by: XY, YZ
- Amount: XY work days
- Version: **not planned yet**
- Planned Implementation Timeframe: X - Y

Motivation

We do not want to limit the user's choice in terms of which browser he uses. That means the backend must work in mainstream browsers Firefox, Chrome, Internet Explorer. While we continually test with Firefox and Chrome, we do not do this for IE.

Goal

Make content editing work with Internet Explorer.

Deliverables

- required: first, fix IE10
- required: then, fix IE9
- optional: if possible, fix IE8

Subtasks:

Bug # 40552: Firefox 11 / 15 issues	**Closed**
Bug # 40735: Missing button margin in Firefox 14	**Closed**
Bug # 42200: IE9: Loading the page tree fails	**Resolved**
Bug # 44727: Button toolbar is placed inline in Firefox	**Closed**
