Updated:	2014-03-19	Due date:	
Subject:	Documentation Main Page at flow.typo3.org is broken (404)		
Description			
What if you go to flow.typo3.org and want to get started by clicking "Documentation" in the main menu?			
404!!!!			
http://flow.typo3.org/documentation.html

This is still true, but not entirely the same way. Clicking on "Documentation" shows up a page with links to docs.typo3.org.

However, the menu on the left-hand side still points to the old docs on flow.typo3.org. Some get redirected to docs.typo3.org, but not all. Typically choosing "Coding guidelines", then clicking on an item in the table of contents leads to a 404 page.
