| **Subject:** | Implement enhanced @position syntax known from TypoScript also in the property panel inspector editors |
|---|---|

**Description**

TODO decide: should the property also be named "@position" in the YAML schema? Probably not, but not sure currently...

## History

**#1 - 2013-02-09 11:15 - Marc Neuhaus**

I think we should make this an UtilityFunctions somewhere, because we'll probably have more places where

we need that in the future. I used that algorithm as well in :
