TYPO3.Neos - Bug # 45442

Status:	Resolved	**Priority:**	Should have
Author:	Aske Ertmann	**Category:**	
Created:	2013-02-13	**Assigned To:**	Aske Ertmann
Updated:	2013-08-09	**Due date:**	
Subject:	Supertype configuration not inherited in VIE schema generation		
Description			

Supertype configuration of node type configuration is not inherited when generating VIE schema in the NodeTypeSchemaBuilders convertToVieSchema method. This means that you have to configure stuff like group: and other stuff for every node type definition.

Currently it causes the icons of the column element not to be inherited leading to the default icon in the new content element popup

Revision 2d7a9ee6 - 2013-03-31 17:22 - Aske Ertmann

[TASK] Make node type schema builder use node type manager

This is needed for inheritence of configuration from super
types and to keep a centralized handling of node types.

Change-Id: l96b2969bc6556df9a1db6ed41a44d9bdafde99f5
Fixes: #45442
