[TASK] Disable links in editor generated content

When in backend the inline links in editor generated content is clickable. This may result in empty links and disturbs the content editing part.

This disables all inline links inside the class t3-inline-editable while in backend.

Hi Adrian,

Is this still an issue for you? I have tried it with both Firefox and Chrome and can't reproduce the problem with that the when trying to edit an link, it sends you to the url. Is it something specific I have to do when editing a link to reproduce it?
