

## Base Distribution - Work Package # 45540

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Aske Ertmann	<b>Category:</b>	
<b>Created:</b>	2013-02-16	<b>Assigned To:</b>	
<b>Updated:</b>	2014-01-30	<b>Due date:</b>	
<b>Subject:</b>	[EPIC] Search		
<b>Description</b>			
<h3>Search</h3> <ul style="list-style-type: none"><li>- Target Audience: <b>users</b> want to search for nodes/domain models in the content &amp; management view</li><li>- Responsible: XY</li><li>- Implemented by: XY, YZ</li><li>- Amount: XY work days</li><li>- Version: <b>not planned yet</b></li><li>- Planned Implementation Timeframe: X - Y</li></ul>			
<b>Motivation</b>			
[TODO write goal from a user's perspective. Try to answer the question: "Why is this work package important for the target group?"]			
<b>Goal</b>			
[TODO what do you want to achieve? Try to answer the question: "What do you want to achieve?"]			
<b>Deliverables</b>			
[TODO: write bullet points for measurable deliverables; flag them as must have and can have]			
<ul style="list-style-type: none"><li>- Should probably support Lucene search database like Solr &amp; Elastic Search with a kind of indexing and search api layer, and then we should provide a fallback package that can use Mysql/PostgreSQL to index and search using the same API.</li></ul>			

### History

#### #1 - 2013-02-16 21:59 - Aske Ertmann

- Subject changed from Search to [EPIC] Search

#### #2 - 2013-02-27 10:59 - Sebastian Kurfuerst

- Adrian Föder has already worked on that (TYPO3.ElasticSearch for Domain Models)
- Michael Klapper has started working on TYPO3.Solr; for TYPO3CR Nodes
- Helmut Hummel is also interested in that

would be great if you could all figure out how to find synergies...

#### #3 - 2013-04-10 21:14 - Aske Ertmann

- Target version set to 1.1

#### #4 - 2014-01-30 14:23 - Sebastian Kurfuerst

FYI:

- this is currently tackled by <https://github.com/Flowpack/Flowpack.ElasticSearch.ContentRepositoryAdaptor> -- has been proven in production

already.
