### History

#### #1 - 2013-03-01 14:49 - Tomas Norre Mikkelsen

- File *feeditadvanced.patch* added

#### #2 - 2014-01-09 14:39 - Thorsten Schmitz

Hi,

**Thank you for the patch Tomas!** Exactly what i needed, worked like a charm.

Now i've got a problem when adding a new page, but this is a Javascript error so i'll make a new issue if it's related to feeditadvanced and there isn't one...

TYPO3 6.1.7

feeditadvanced 1.5.0

#### #3 - 2014-08-03 14:14 - Chris topher

- File *45943-2.patch* added

Hi Tomas,

thanks for your patch! I'll check/commit it.

After #40773 has been fixed only the attached part is relevant; the rest is already solved.

**#4 - 2014-08-03 14:23 - Chris topher**

- *Status changed from New to Resolved*
- *% Done changed from 0 to 100*

The call to `testInt()/canBeInterpretedAsInteger()` has already been solved nicely in the current master branch (uses a wrapper function, which makes it compatible with TYPO3 4.5 and 4.6+).

The call to `helpText()` has already been fixed with #10573; thanks Lorenz for committing!

**#5 - 2014-08-03 17:44 - Chris topher**

- *Subject changed from 6.0 Compability Changes to 6.0 Compatibility Changes*

**#6 - 2014-08-06 12:06 - Chris topher**

- *Status changed from Resolved to Closed*
