Subject:	Inserting of new content which uses layout or partials fails		
Description	When inserting new content which uses layout or partials the standalone view is unable to find the partial or layout if it ends with .html due to it's being rendered through a ExtDirect call. This means that it tries to look for a layout or partial with .extdirect instead of .html

[BUGFIX] Fix inserting new content using layouts/partial

When inserting new content which uses layout or partials the standalone view is unable to find the partial or layout if it ends with .html due to it's being rendered through a ExtDirect call. This means that it tries to look for a layout or partial with .extdirect instead of .html
