TYPO3.Neos - Bug # 46059

Status:	Resolved	**Priority:**	Should have
Author:	Piseth Sok	**Category:**	
Created:	2013-03-06	**Assigned To:**	Piseth Sok
Updated:	2013-05-11	**Due date:**	
Subject:	Workspace error		
Description			

I got this error when I navigate to workspace module in backend.

PHP Fatal error: Call to a member function getResourcePointer() on a non-object in
/home/bruderer/public_html/Data/Temporary/Development/Cache/Code/Flow_Object_Classes/TYPO3_Media_Domain_Service_ImageService
eService_Original.php on line 41

I think it is content error with image but I am not sure.

Hey Piseth

Thanks for the bug report

Do you have any information on how to reproduce this problem? It's very hard to debug without being able to reproduce the issue. I suspect that it can be reproduced by editing nodes in a certain way, so would be very helpful if you could figure out what exactly leads to this issue. Preferably on a clean install/import.. Otherwise I don't think I can do much about this, unfortunately.

#2 - 2013-05-11 19:51 - Christian Müller

- Status changed from Needs Feedback to Resolved

I have seen the project, I think the problem was a missing image resource in a node.
