<b>Affected Flow version:</b> Git master			
<b>Subject:</b>	Currency formatter uses wrong format for ISO 4217 currency codes		
<b>Description</b>			
<p>Currently the currency formatter is optimized for currency symbols like '€'. If you format something using EN locale, €23 is correct. With ISO 4217 code 'EUR' it should be: EUR 23, but today it's EUR23. (mind the space, see: <a href="http://publications.europa.eu/code/en/en-370303.htm#position">http://publications.europa.eu/code/en/en-370303.htm#position</a>)</p> <p>So it should support these ISO codes as well.</p>
