<b>Subject:</b>	Workspace module breaks when having two node with same path		
<b>Description</b>	<p>Due to the uniqueness of paths, the workspace module breaks if you have two nodes on the same level with the same path. E.g. two subpages or a subpage and a section with the same path.</p> <p>We need to figure out what we can do about this issue, since it will become a regular problem.</p>		
<b>Related issues:</b>	related to TYPO3.Neos - Bug # 45542: Workspace module breaks with error <span style="float: right;">Closed 2013-02-17</span>		

### History

#### #1 - 2013-03-18 14:40 - Bastian Waidelich

Just some (not really sophisticated) thoughts that came up on this one:

Probably it would have been good to change the path for "non-folder" nodes from "/sites/site/page1/page2/main/text1" to s.th. like "/sites/site/page1/page2/\_sections/main/\_elements/text1" but that would be quite a (breaking?) change.

In any case we should always validate changes to the TYPO3CR before persisting them..

In this case it would mean that you couldn't change the URI to "main.html" (if you have a section "main", too) but in the long run routing and node names should be separate anyways

#### #2 - 2013-05-17 18:33 - Sebastian Kurfuerst

- Status changed from New to Accepted

- Assigned To set to Tim Kandel

#### #3 - 2013-07-03 12:04 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/21830>

#### #4 - 2013-10-11 15:48 - Aske Ertmann

- Status changed from Under Review to Rejected

We decided not to fix this in the workspace module, but instead make sure it's not possible with the TYPO3CR API

#### #5 - 2014-11-02 18:22 - Aske Ertmann

- Status changed from Rejected to Closed
