Revision 4b98be87 - 2013-04-06 21:03 - Alexander Opitz

[BUGFIX] EM ConstantsView crashes with dep/faulty types.

The types default and input are deprecated. Removing of this let the ConstantsView crash, as there is no function configuration for them.

We now readd the config in 6.1 as we have no problems with this lines in the core and we don't know how much extsnions exists which fail.
