Complexity:			
Subject:	Implement pointcut designator for annotations		
Description			
Currently there is no pointcut filter for matching annotations - create it!			

Associated revisions

Revision fca1af85 - 2008-06-04 13:47 - Robert Lemke

- FLOW3: (AOP) Added support for a new pointcut designator which allows to filter for matching annotations. This designator is called "classTaggedWith()". Resolves #47.
- FLOW3: (Documentation) Added documentation for the above pointcut designator.
- FLOW3: (Reflection) FLOW3's Reflection Class and Reflection Method implementation did not always return reflection objects of their own kinds if asked for getDeclaringClass() etc. - added some tests and support for that.
- FLOW3: (AOP) Refactored the pointcut filtering for making the classTaggedWith() filter possible.
