Revision 06a1694d - 2013-07-12 09:27 - Adrian Föder

[BUGFIX] Behave silently if no translation unit elements are present

If a translation source does not contain any translationUnit elements, which is allowed in XLIFF for <trans-unit> elements inside //file/body, now there is no Undefined Index error anymore, but the incident is silently logged to the system logger as every other translation-related incident.
