can you check 2 things?

1st: is the field in the database?

2nd: change it in the tca to a normal textfield or disable the rte and recheck if it opens.

thx

Good morning George,  
of course, i done the DB check in the INSTALLTOOL.  
If im disable the option [basic.showMediaDescriptionField] in Em go back to News Articel, all works fine.  
if you like i give you access to the system.

greetings  
Matthias

Same effect in TYPO3 6.1Beta2

**#4 - 2013-04-22 07:26 - Georg Ringer**

access to the server would be great yes. please send me the credentials via mail.
