

TYPO3 Flow Base Distribution - Bug # 47419

Status:	New	Priority:	Must have
Author:	Rens Admiraal	Category:	
Created:	2013-04-22	Assigned To:	
Updated:	2013-08-14	Due date:	

Affected Flow version: Git master

Subject: Composer issues

Description

It seems like composer has some issues. I've heard multiple projects now where the following happens:

composer --dev update: works ok

composer install: installs framework packages in Packages/Libraries

besides that the command in the quickstart docs (composer create-project --dev --keep-vcs typo3/flow-base-distribution Quickstart 2.0.0) doesn't seem to work anymore (can't find package with version.....)
