Subject:	missing Hooks in Form Wizard		
Description			

Hi,
i am a developer for the wt_spamshield extension.
Since TYPO3 4.6 "form" is rewritten. We miss Hooks to integrate wt_spamshield.
It would be great if the function showForm() in Classes/Controller/Form.php (for TYPO3 4.x) and FormController.php (for TYPO3 6.x)
could provide a Hook to manipulate the mail sending process.
I attached 2 patches for TYPO3 4.x and TYPO3 6.x

History

#1 - 2013-04-22 18:45 - Philipp Gampe

Hooks are features and as such may only go into the dev branches (6.2 after release of 6.1).

IMHO the hook should return $show.

Would you please push your patch to gerrit: http://wiki.typo3.org/Contribution_Walkthrough_Tutorials

#2 - 2013-04-24 08:58 - Patrick Broens

- Target version set to 6.2.0

- TYPO3 Version changed from 4.7 to 6.2

As Philipp mentioned, this hook is a new feature and should not go into older versions than 6.2.

The goal is to have Slot/Signal instead of hooks in 6.x. I would like to see this one as a Signal Slot as well.

I'll have a look if I can find the time soon to get this done.

#3 - 2013-04-24 10:53 - Patrick Broens

- File FormController.php.6.x.diff added

Could you try the Signal Slot I've provided?

#4 - 2013-04-24 10:58 - Patrick Broens

- File FormController.php.6.x.diff added

Sorry, forgot the $submittedByPrefix parameter

#5 - 2013-04-24 10:59 - Patrick Broens

- File deleted (FormController.php.6.x.diff)

#6 - 2013-10-28 20:58 - Ernesto Baschny

- Target version deleted (6.2.0)

Sadly work stalled on this signal slot, let's try to not forget about it for future versions.

#7 - 2015-01-18 22:53 - Mathias Schreiber

- Target version set to 7.2 (Frontend)

#8 - 2015-06-15 17:44 - Benjamin Mack

- Target version changed from 7.2 (Frontend) to 7.4 (Backend)

#9 - 2015-07-19 12:55 - Bjoern Jacob

- Category changed from Form Wizard to PRJ: Forms

#10 - 2015-07-20 17:24 - Bjoern Jacob

- Category changed from PRJ: Forms to Form Wizard
