

Core - Bug # 47730

| | | | |
|--|--|---------------------|-------------------|
| Status: | Resolved | Priority: | Could have |
| Author: | Andreas Becker (Andi) | Category: | Install Tool |
| Created: | 2013-04-30 | Assigned To: | |
| Updated: | 2013-09-12 | Due date: | |
| TYPO3 Version: | 6.1 | | |
| PHP Version: | 5.3 | | |
| Complexity: | nightmare | | |
| Is Regression: | No | | |
| Sprint Focus: | | | |
| Subject: | After update from 4.7 - White Page in Install Tool | | |
| Description | | | |
| <code>/typo3/install/index.php?TYPO3_INSTALL[type]=config</code> Shows a white Page. The localConfiguration file has been recreated, only default extensions are installed and the database exists. As people will enter their database data in Basic Configuration they will get back to exact to <code>/typo3/install/index.php?TYPO3_INSTALL[type]=config</code> which then will be white! Solution - change manually the word "config" into "about" and then you can access your install tool again! This should be immediately fixed as people get blocked direct after they call the install tool! | | | |

History

#1 - 2013-04-30 15:16 - Chris topher

- Status changed from New to Needs Feedback

For me the Install Tool works as expected.

Can you list the steps you are taking like

1. Click here...
2. Go there...
3. ...

to get the white screen? Any PHP errors?

#2 - 2013-05-01 15:25 - Andreas Becker (Andi)

Bug #47746

The steps are all listed here - it was a very simple site with only TV Framework 1 and realURL and weconfig wecontentelements - nothing more

#3 - 2013-05-01 16:28 - Chris topher

- Priority changed from Must have to Could have

#47746? Whom do you expect to read all this? See the comment there.

If there is no understandable and *reasonably short* list of steps to take in order to reproduce this problem, no PHP errors and nothing, then I think it won't be fixable.

#4 - 2013-07-30 01:59 - Wouter Wolters

This will be resolved with the Install Tool in 6.2. There will be a check for this and report it back what is wrong. No broken install tool anymore!

#5 - 2013-09-12 17:20 - Christian Kuhn

- *Status changed from Needs Feedback to Resolved*
- *Complexity set to nightmare*
- *Is Regression set to No*

This was already fully fixed in 6.2 install tool.

Due to the install tool code in 6.1, this is not fixable in 6.1.

I'll close as "resolved" but will set complexity to "nightmare" for 6.1 ...
