Is Regression:	No		
Sprint Focus:			
Subject:	Don't set extensions checked by default in InstallSysExtsUpdate		
Description			
<p>By default TYPO3 is trying to force you to install the following extensions which should NOT be checked by default!</p> <p>Frontend Editing User>Open Documents Recycler Scheduler Simulate Static URLs (which will bring you in conflict with all those people who actually are running cooluri and realURL!)</p> <p>The complete Point actually does not belong in the Upgrade Process! People who had installed one of those extensions should update it or they get updated with the upgrade and compare</p> <p>Especially Simulate Static URLs is totally useless for people who use realURL and cooluri!</p>

[TASK] Don't set extensions checked by default in InstallSysExtsUpdate

In the InstallSysExtsUpdate update wizard the extensions are checked by default. This gives the indication that the extensions need to be installed. In fact they are optional and therefore should not be checked by default.

Change-Id: I61ad081b08d1906d224a29c79702db3fe1597e1

Resolves: #47733

Releas: 6.2

History

#1 - 2013-07-30 01:52 - Wouter Wolters

- *Status changed from New to Needs Feedback*

This is partly solved with #49256 the wizard is now marked as done after one time running it.
The only question left is do we need to have those extensions checked by default?

#2 - 2013-07-30 02:56 - Philipp Gampe

IMHO none of the extensions should be checked by default.
