Subject:	Workspaces and Versioning get installed by default - Remove this option.		
Description	<p>you get forced to install workspaces and versioning - no way around beside skipping the wizard.</p> <p>There should be a checkbox to install those two extensions like you have it for the System Extensions.</p> <p>Actually this Part should appear in the same list like the system Extensions logically and people can choose it in one step.</p>

[BUGFIX] Workspaces and Version update wizard isn't skippable

When you skip the update wizard for workspaces and version you always get the wizard back. The update wizard is not marked as done when you don't want to install the extensions.

To fix this we need to copy some functions from AbstractUpdate because the update wizard for workspaces and version extend the SystemExtension update wizard.
