

TYPO3.Flow - Feature # 478

Status:	Resolved	Priority:	Should have
Author:	Axel	Category:	Object
Created:	2008-04-24	Assigned To:	Robert Lemke
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Subject:	More speed for object creation		
Description			
<p>I attached the file F3_FLOW3_Component_ObjectBuilder.php with some changes in the methods createComponentObject and injectConstructorArguments.</p> <p>The objectcreation with eval() is a litte bit slow and i changed this to ReflectionClass::newInstance. This results in a 17% better performance (testet with ApacheBench on the TestPackage) and a more readable injectConstructorArguments - method. All seems to work fine, but i was not able to run the testcase yet(PHPUnit crashes my apache). Perhabs someone else can test that.</p> <p>(I'm sorry about my bad english)</p>			

Associated revisions

Revision 4d9ddfe8 - 2008-05-23 12:08 - Robert Lemke

- FLOW3: (Component) Improved the performance of the component object builder, resolves #478. Thanks to Axel for the suggestion.
- Removed the index*.php files from the main directory - the ones in the Public/ dir should be used.
