Subject:	Colon not possible in TCA "displayCond" value				
Description					
<p>Currently a colon is not possible in the value of a display condition for TCA fields.</p> <p>So something like this would does work:</p> <p>FIELD:view.templateRootPath:=:EXT:myext/Resources/Private/Templates/customTemplateFolder/</p> <p>The funtion "isDisplayCondition" explodes the string by the ":" character. So the example string is exploded into 5 parts but the 5th part is ignored.</p> <p>The "explode" should be limited to 4 parts and 4th part should contain the whole string after the third colon.</p>

Revision 7f42eca5 - 2013-07-22 19:55 - Sascha Egerer

[BUGFIX] Allow colon in last "displayCond" part

Explode the "displayCond"-string just to required number of parts. So the last part can also contain colons.

Also backports unit-tests from ElementConditionMatcher of TYPO3 6.1 and adds a check for this colon-bugfix here.

Resolves: #47988

Releases: 6.0, 4.7, 4.5

I'd even prefer to explode only into 2 parts and split the second part according to the case (FIELD, EXT, REC, ...).
