Corresponding ticket in TYPO3 CMS tracker #45960

#2 - 2013-05-15 12:45 - Alexander Berl

You should use the additionalAttributes attribute for things like that.

```
<f:form.textfield ... additionalAttributes="{ placeholder: field.title -> vh:string.RawAndRemoveXss() }" />
```

- % Done changed from 0 to 100

This is fixed. Just tested it today with current master.

#5 - 2013-06-05 12:06 - Adrian Förder

right Philipp, it's solved with l24bb73c5de5a494259171ff289d434892f85e16e on Jan 24; however I wonder why this issue is that "fresh", Helmut, is your inquiry based on an older state?
