Sprint Focus:			
Subject:	File-Indexer doesn't flag missing files as deleted		

Description

De fileindexer doesn't flag missing files as deleted.

Now when a file is deleted from fileadmin directory (for example through ftp):

- file isn't visual anymore in BE Filelist
- Because it isn't visual you can not set it as deleted by hand.
- for all plugins and references it is still present because deleted flag isn't set
