Has patch:	No		
Subject:	Make NumberViewHelper regard locale like CurrencyViewHelper does.		
Description	Currently the NumberViewHelper doesn't regard the locale, but the CurrencyViewHelper (and DateViewHelper) does. Those ViewHelpers should be put in line with each other regarding Locale awareness.

[FEATURE] Make NumberViewHelper regard locale

This change makes the NumberViewHelper use the forceLocale attribute like the Currency and DateViewHelper do.

It also abstracts the locale awareness away into a separate abstract ViewHelper class to lay a foundation for other such ViewHelpers.

No problem Bastian, I'm pretty much out of Flow coding business for the time being either, so I can barely provide as much as a half year ago ;(

Thanks for taking care!

I hope to get back in latest somewhen in spring. But then with a relatively big project where I will require quite some features and contribute them if they're not done yet ;)

I'll still keep watching and providing my input and the occasional weekend-patch till then.
