| Subject: | Pages: Add all team members to the website | | |
| Description | | | |
| <p>We have to add all team members to the website. It should be at least the name and the position and it would be nice to also show a picture.</p> <p>Idea:</p> <ul style="list-style-type: none">- Create a NodeType to show a team member with name and picture- Maybe also show the location (country and city)- Would be more work but also more personal: also show a sentence next to each member, like in the conference speaker descriptions | | | |
