

## TYPO3.Flow - Bug # 48532

<b>Status:</b>	Under Review	<b>Priority:</b>	Should have
<b>Author:</b>	Alexander Berl	<b>Category:</b>	MVC
<b>Created:</b>	2013-05-25	<b>Assigned To:</b>	Alexander Berl
<b>Updated:</b>	2014-06-11	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>			
<b>Affected Flow version:</b> Git master			
<b>Subject:</b>	JsonView Configuration behaves differently for arrays and objects		
<b>Description</b>			
<p>Currently, the behavior for the JsonView configuration is completely different for arrays and objects, which makes configuring anything other than a simple one-level hierarchy output very hard.</p> <p>See <a href="http://lists.typo3.org/pipermail/flow/2013-May/003846.html">http://lists.typo3.org/pipermail/flow/2013-May/003846.html</a> for more information.</p> <p>I therefore suggest the following change to the JsonView Configuration:</p> <ul style="list-style-type: none"><li>- arrays and objects should be configured equally apart from the object identifier/class name options</li><li>- <code>_only</code> and <code>_exclude</code> should always take precedence and act as a whitelist/blacklist</li><li>- <code>_descendAll</code> should also work for objects</li><li>- simple type properties/elements should be serialized directly in both cases</li><li>- <code>_descend</code> should configure all other array/object properties/elements</li></ul> <p>If <code>_descend</code> should still act as a second level whitelist, so that all array/object values not configured there are skipped is debatable - it would be more like the current implementation, though from a user POV it is a little bit misleading as to what the difference of <code>_only</code> vs <code>_descend</code> would be.</p> <p>This would lead to following breaking behaviors:</p> <ul style="list-style-type: none"><li>- arrays are no longer fully evaluated by default (<code>_descend</code> acts as whitelist) or objects are fully evaluated by default (<code>_descend</code> does not whitelist but only sets configuration for subvalues)</li><li>- arrays are no longer evaluated deeply by default and need explicit <code>_descendAll</code> configuration for each level</li></ul>			

### History

#### #1 - 2013-06-27 12:52 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/21684>

#### #2 - 2014-06-11 15:53 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.Flow** has been pushed to the review server.

It is available at <https://review.typo3.org/21684>
