Core - Bug # 48552

Status:	Closed	**Priority:**	Must have
Author:	Christian Weiske	**Category:**	Extension Manager
Created:	2013-05-26	**Assigned To:**	
Updated:	2015-01-17	**Due date:**	
TYPO3 Version:	4.7		
PHP Version:	5.4		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Unable to install static_info_tables in 4.7.12 EM		

Description
TYPO3's 4.7.12 extension manager downloads the latest version of static_info_tables, 6.0.1. Activating is not possible because it's only compatible with TYPO3 6.0.0 and up.
The last version compatible with 4.7.12 is static_info_tables version 2.3.2, but I'm not able to install that from within the extension manager.
The EM should download only that version that is compatible with my TYPO3 version.

History

#1 - 2013-06-13 12:18 - Christine Rochelt

I was able to download static_info_tables version 2.3.2 by changing the url to

http://typo3.org/extensions/repository/download/static_info_tables/2.3.2/t3x/

Installing it however caused a fatal error in the backend and I had to remove the extension in the extension list (in /typo3conf/localconf.php, line $TYPO3_CONF_VARS['EXT']['extList'] = ...). I was able to install static_info_tables version 2.3.1 (

http://typo3.org/extensions/repository/download/static_info_tables/2.3.1/t3x/) without a problem and then updated to version 2.3.2.

TYPO3 4.7.12

MySQL 5.1.67

PHP   5.3.21

MySQL 5.1.67

PHP   5.3.21

Had the same Problem (TYPO3 4.7.15), first installed version 6.x and then uploaded 2.3.2 manually with "overwrite existing..." causing:

PHP Fatal error: Class 'TYPO3\\CMS\\Core\\Utility\\ExtensionManagementUtility' not found in

httpdocs/typo3conf/ext/static_info_tables/ext_autoload.php on line 5, referer: typo3/backend.php

So i guess the ext_autoload.php remained from the newer version and caused the error, after deleting the extension folder and uploading 2.3.2 everything worked fine.

- Status changed from New to Closed

Taken into account in #63909.

The issues are not linked on purpose, so the refactoring ticket does not get bloated with relations.
