TYPO3.Flow - Bug # 48596

Status:	Under Review	**Priority:**	Should have
Author:	Alexander Berl	**Category:**	Configuration
Created:	2013-05-28	**Assigned To:**	Alexander Berl
Updated:	2015-02-14	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version: Git master	
Subject:	IgnoredTags configuration should be easier to configure from packages

Description

Currently packages can not easily add new tags to the TYPO3.Flow.reflection.ignoredTags list, as they always need to provide a full list.
Changing the configuration merging behavior is not a good way, hence the configuration type of ignoredTags option should be changed from array to dictionary with the tags as key. This will allow easy adding of ignored tags from packages and un-ignoring tags also.

See discussion in https://review.typo3.org/#/c/20773/ and http://forge.typo3.org/issues/43587 for more information.
