**Description**

(Iam talking about T3 V6+)

Images are stores as IRRE Records.
Along with the Image there are Captions and altext/title text stored.

Now I wand to repace the Image A with Image B
(B is not a new Version of A: This could be achived with overwriting the file is selfe)

If you want to replace the Image with an other you have to
- add a new Image,
- copy the alt-Text/caption to the new
- move the New Image to the old position
- delete the Old image,

There sould be a Button "Replace the File".

i would welcome this feature in the next Version of TYPO3.

Thank you,

Christian.

## History

**#1 - 2013-05-29 18:54 - Andreas Wolf**

*- Status changed from New to Accepted*

*- Target version deleted (6.2.0)*

**#2 - 2014-01-26 16:03 - Rafal Brzeski**

We need this feature in TYPO3 6.2 LTS.
Is there a chance that it will be in 6.2?

**#3 - 2015-01-14 21:26 - Mathias Schreiber**

*- Sprint Focus set to On Location Sprint*

**#4 - 2015-01-31 15:25 - Mathias Schreiber**

*- Subject changed from Easy way to replace Image-References to Easy way to replaceReferences*

*- Category changed from File Abstraction Layer (FAL) to Backend User Interface*

*- Target version set to 7.4 (Backend)*

*- Sprint Focus deleted (On Location Sprint)*

We had a rather hard time understanding the ticket.

So the intention is to replace an IRRE relation from within FormEngine.
