TYPO3.Neos - Bug # 48858

Status:	Resolved	**Priority:**	Must have
Author:	Simon Schaufelberger	**Category:**	
Created:	2013-06-05	**Assigned To:**	
Updated:	2013-07-03	**Due date:**	
Subject:	Deleting of users, sites and objects generally in the backend is broken		

Description

currently you cannot delete anything in the neos backed. I don't know but maybe its because the CSRF string is missing? The delete button is just a normal link with the node identifier attached.

if thats not in the right project, please move it in the correct one. i just dont know if thats related to neos or to flow generally.

Associated revisions

Revision 8645aadd - 2013-06-05 13:18 - Aske Ertmann

[TASK] Adjust to safe request changes

Removes Flow\SkipCsrfProtection annotations from
controller actions.
Fixes all get requests with side effects in modules:

- User settings
- Users management
- Workspaces
- Sites management

Currently not supported in Internet Explorer. Would need
polyfill to support HTML5 form attribute functionality.

- Status changed from New to Under Review
- Target version set to 1.0 beta 1
- % Done changed from 0 to 90

Take a look at this patch: https://review.typo3.org/#/c/20172/
It fixes the problem, but I think it needs to be adjusted to the recent CSS class renaming.

#2 - 2013-06-05 12:20 - Simon Schaufelberger

ok thanx for that hint. indeed that patch fixes it.

#3 - 2013-07-03 17:13 - Tim Kandel

- Status changed from Under Review to Resolved

- % Done changed from 90 to 100

Since the patch has been merged a while ago, this can be closed.
