

## TYPO3.Flow - Feature # 48862

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Pankaj Lele	<b>Category:</b>	Monitor
<b>Created:</b>	2013-06-05	<b>Assigned To:</b>	
<b>Updated:</b>	2013-06-05	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>	easy		
<b>Subject:</b>	Possibility to exclude package from file monitoring		
<b>Description</b>			
<p>We wanted to integrate the phpoffice/phpexcel package using composer. <a href="https://packagist.org/packages/phpoffice/phpexcel">https://packagist.org/packages/phpoffice/phpexcel</a></p> <p>After composer requiring it we faced error "PHPExcel_Shared_PCLZip_pclzip.lib" is not a valid cache entry identifier. " when trying to access Flow anyway CLI/Web.</p> <p>Then we tried to exclude all classes from this package using the Flow setting TYPO3.Flow.object.excludeClasses but this did not help.</p> <p>After further digging I came to know that file monitoring is not excluding files from this package so I think exclude from file monitoring can be helpful setting to integrate third party packages and Flow do not care about those packages.</p> <p>As a workaround we made the package inactive by <b>manually</b> editing the Configuration/PackageStates.php</p>
