Core - Bug # 48893

Status:	Resolved	**Priority:**	Must have
Author:	Claus Harup	**Category:**	File Abstraction Layer (FAL)
Created:	2013-06-05	**Assigned To:**	Frans Saris
Updated:	2015-02-01	**Due date:**	

TYPO3 Version:	6.1
PHP Version:	
Complexity:	
Is Regression:	No
Sprint Focus:	On Location Sprint
Subject:	Deleting files with references?!

Description

I have setup a simple editor - granting access to fileadmin/user_upload/

The editor is able to delete files that have references?!?!?!

See attachement for details....

Am I missing some configuration?

Revision 7e50e179 - 2015-02-01 13:46 - Armin Ruediger Vieweg

[BUGFIX] Prevent folder deletion with referenced files

Currently a folder can be deleted without any check if included files are still in use anywhere within the website. This can lead to lost files and can be harmful for the user. The patch adds a test if files within a folder, which should be deleted, are still referenced and prevents deleting it if files where found. The user is notified with a warning shown above the file list.

Resolves: #48893
Releases: master, 6.2

History

#1 - 2013-08-05 16:11 - Frans Saris

When he tries to delete the file he gets a error message that it isn't posible because file is in use.

#2 - 2013-08-05 16:18 - Claus Harup

Hi Frans

I found out that that was the case, but would it not be more userfriendly if the deleteicon wasnt even there?

/Claus

#3 - 2013-08-19 15:20 - Ernesto Baschny

- Target version set to 6.2.0

Not more user-friendly, because it would look like a "bug" ("Where is the delete option?? I'll report that on the core bug tracker...") instead of explaining
why he cannot delete.

But I agree that the user interface could be improved in this area, will try to get some input from the UX team on that. thanks for bringing it up.

#4 - 2013-08-19 15:35 - Philipp Gampe

IMHO there should be the icon, but it should not be linked to the action, but rather to an JS pop (onclick) that explains the reason why it is not possible
to delete the file.

#5 - 2014-05-10 12:17 - Sebastian Fischer

Currently you get the following message if you try to delete a referenced file.

File not deleted
The file cannot be deleted since it is still used at the following places:
 TCA Test [/Home/]

Do we need more informations for the editor?

#6 - 2015-01-24 16:47 - Andrea Herzog-Kienast

- Assigned To set to Frans Saris

You can delete a file with references!
If you have a folder structure like

folder
-- subfolder
--- 3subfolder

The 3subfolder contains files which are used in content elements and are referenced.
If you delete the parent folder "folder" all 3 folders are deleted - even if there are referenced files in the folder.
