

Coordination Group - Task # 48929

Topic # 48923 (Closed): Inspiring Flow Video

Status:	Accepted	Priority:	Should have
Author:	Berit Hlubek	Category:	Communication
Created:	2013-06-06	Assigned To:	Karsten Dambekalns
Updated:	2014-04-07	Due date:	
Subject:	Optimize flow.typo3.org		
Description	<ul style="list-style-type: none">- Find missing content- Find content that has to be optimized or updated		

History

#1 - 2013-06-11 23:24 - Berit Hlubek

In a first step I write everything down I realize while having a look at the pages:

<http://flow.typo3.org>

- Update needed:
 - feature freeze stage should be updated - can be the video
 - get inspired stage element: maybe remove the "already" at the end of the sentence
 - wrong link color on footer link
- Optimization ideas
 - add more personality to that page, an idea could be: add some kind of calendar, add a connection to forge or show some faces in some other

way

<http://flow.typo3.org/about.html>

- Update needed:
 - Layout seems to be broken, wrong spacing, wrong borders

<http://flow.typo3.org/about/features.html>

- Optimization ideas:
 - Add a nice looking feature overview next to first paragraphs above the first feature to already get a grasp of all features directly after loading the

page

<http://flow.typo3.org/about/requirements.html>

- Update needed:
 - Spacing between paragraph and first subheadline is too small (styling seems to be broken/wrong)
 - NGINX really experimental?

<http://flow.typo3.org/community.html>

- Update needed:
 - wrong event link, should go to: <http://typo3.org/events/>

<http://flow.typo3.org/community/events/campus-party-2012.html>

- That page has to be updated!
- Create a list with code sprint dates and names and add it and links to news articles of those exist
- add Inspiring Flow
- add upcoming events
- correct the text about the campus party (Phoenix is mentioned there)

<http://flow.typo3.org/support.html>

- Update needed:
 - the mailing list links are not correct anymore
 - <https://twitter.com/TYPO3Flow/flow3-core-developers/members> should be updated

*<http://flow.typo3.org/documentation/screencasts.html>

- Are there some new screencasts which could be added?

#2 - 2014-04-07 13:14 - Karsten Dambekalns

- *Status changed from New to Accepted*
- *Assigned To changed from Berit Hlubek to Karsten Dambekalns*

First step is an update of the Neos version, then back to the content and organizational part.
