|---|---|
| **TYPO3 Version:** | 6.1 |
| **PHP Version:** | 5.4 |
| **Complexity:** | |
| **Is Regression:** | |
| **Sprint Focus:** | |
| **Subject:** | Copying a link to a non-exisiting location into the text editor throws error |

**Description**

Test enviroment:
MacOSX 10.7.5
MAMP 2
php 5.4.4 (/-XCache) & php 5.3.14 (/-XCache)
TYPO3 CMS v6.1.1
htmlAREA
tinymce_rte 0.9.2
---------------------

Copying text from an HTML source into a text editing field of an htmlAREA-enabled textarea – htmlREA being in text-mode – will throw an error:

Uncaught TYPO3 Exception
#1320575630: Folder [some source path] does not exist.

Trying to re-edit the element in question is no longer possible, because the error page will be shown all the time. Only turning off any textarea editors (tested with htmlarea and tinymce_rte) will make the content element accessible again.

**History**

**#1 - 2013-06-08 12:02 - Robert Wildling**

That's a duplicate to the related issues as I found out after filing the report.
#46785 has a patch, aiming for TYPO3 CMS 6.2 LTS, so please close this one again.
Sorry, and thanks!
