[FEATURE] show Aloha in Top Bar and Inspector

Splits up Aloha functionality, such that the formatting tab is shown in the top bar, and the remaining Aloha functionality is shown in the inspector; rendered with the Neos editing controls.

This is not yet styled, but it should work.

This change furthermore renames "contentCollectionsAndViews" to "groupedPropertyViews" in Controller.Inspector. This was renamed accidentally during the "section -> contentCollection" renaming.

Resolves: #48980
