Sprint Focus:			
Subject:	Install tool uninstallation does not clear the cache_core		
Description			
<p>If you remove an extension using the install tool, then the cache is not cleared.</p> <p>E.g. you have an extension "broken_extension" installed which breaks the backend. Then you will try to deinstall it using the install tool. And still the broken extension's cache is active.</p> <p>Warning: require_once(/var/www/patch/web/typo3conf/ext/broken_extension/hooks/statusreport/ext_localconf.php): failed to open stream: No such file or directory in /var/www/path/web/typo3temp/Cache/Code/cache_core/ext_localconf_85960581373e077434b42e18e3c86c43deaeb4e4.php on line 2724 Fatal error: require_once(): Failed opening</p>
