- Status changed from New to Needs Feedback

Anja, thanks for your help, but there is no need to have an issue for each individual deprecated stuff that was removed here in this projects tracker. There are tons of removed stuff, which can be collected and analysed at once. Oly even has a script that does that collection of "deleted methods" automatically.

So I'll just close them later on if you have nothing against it. Maybe I just misunderstood your issues.

#2 - 2013-06-17 15:05 - Anja Leichsenring

Hi Ernesto,

Steffen asked me to open issues for individual checks we need to implement into the extension. But you are right, I was just thinking the same, that I better group them together, when this makes sense. So I will clean up myself now.
