History

#1 - 2014-02-05 20:44 - Marc Bastian Heinrichs

- Category changed from File Abstraction Layer (FAL) to Import/Export (T3D)
- Assigned To set to Marc Bastian Heinrichs
- Target version set to 6.2.0
- Parent task set to #55520
- Is Regression set to No

#2 - 2014-02-10 12:02 - Marc Bastian Heinrichs

Hey Francois,

More generally the import/export process works pretty badly with FAL, because all storages and sys_files are stored in pid = 0, making it impossible to export just a few pages with their images. You are obliged to export the whole root.

you could include relations stored outside your export tree (also to sys_file records) by selecting the tables in "Include relations to tables:"

#3 - 2014-06-21 18:26 - Marc Bastian Heinrichs

- Status changed from New to Needs Feedback
- Assigned To changed from Marc Bastian Heinrichs to Francois Suter

Works for you now in 6.2?

#4 - 2014-11-03 15:17 - Alexander Opitz

#5 - 2014-11-03 15:34 - Francois Suter

Sounds fine closing it. I haven't tried such a scenario recently, I know a lot happened in 6.2 in this regard.
