TYPO3 Version:	6.2
PHP Version:	
Complexity:	
Sprint Focus:	
Subject:	Installer: Update info message about ['GFX']['TTFdpi']

Description

The default value for the $TYPO3_CONF_VARS['GFX']['TTFdpi'] has been adapted to 96 a long time ago.

The Install Tool still shows a message, telling that in case the text doesn't fit the image, one should use a TTFdpi setting of 96.

I propose to change that text, to something like:
"In case the two images below do not look the same, try to modify the $TYPO3_CONF_VARS['GFX']['TTFdpi'] setting to a value of 72."
