Subject:	Reports Module links to the standalone install tool		
Description			
Remaining updatesUpdate Incomplete			
This installation is not configured for the TYPO3 version it is running. If you did so intentionally, this message can be safely ignored. If you are unsure, visit the Update Wizard section of the Install Tool to see how TYPO3 would change.			
The called link is			
http://localhost/intro/typo3/install/index.php?redirect_url=index.php%3FTYPO3_INSTALL%5Btype%5D%3Dupdate			
This link makes the standalone install tool load in the backend frame. I am not sure this is not on purpose, but looks quite strange.

the link should go to typo3/sysext/install/Start.php and should contain context=backend as parameter. the redirect_url parameter is obsolete, and the text should be adapted, too.
