

TYPO3 CMS Usability Team - Bug # 49718

Status:	Rejected	Priority:	Won't have this time
Author:	Patrick Schriner	Category:	Technical
Created:	2013-07-05	Assigned To:	
Updated:	2013-08-28	Due date:	
Tags:			
Subject:	Change the label user function for FAL records to at least return the uid as title		
Description			
<p>The new label_userFunc for sys_file_reference rows results in "no title" when called by BackendUtility::getRecordTitle. This function is e.g. called from the workspaces module.</p> <p>This patch will set the title parameter to the row uid when the parmeter array does not provide an 'options' 'sys_file' array. This will result in the uid being displayed which is the old behavior.</p>

History

#1 - 2013-07-05 23:59 - Gerrit Code Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/21983>

#2 - 2013-08-26 14:03 - Jens Hoffmann

- *Category set to Technical*

- *Status changed from New to Rejected*

- *Priority changed from Should have to Won't have this time*

How is this UX related?

Seems to be only technical.

Greez Jens

Hi it was really a bugfix for a regression.

Someone suggested to file it under UX.

It is merged in master since July 6, don't know why this is not shown here correctly.
